This Registry includes information on potential and known contaminant source sites. The information contained in this Registry is summarized from IDEM's files. Additional information is available on most sites from the program area listed with each site. The Registry is updated regularly which may result in discrepancies between information submitted to IDEM and the Registry.

The "Map" link will open the IndianaMap viewer in a separate browser window. Problems with the IndianaMap viewer should be reported to the Indiana Geological Survey.

The "VFC" link will open IDEM's Virtual File Cabinet viewer in a separate browser window.

Please report any errors, concerns, or general comments to the Registry
